- Certification of QM and SCC specialist personnel

The mark of quality

TÜV NORD CERT evaluates and attests fulfilment of legal requirements and voluntary standards. You can benefit in many ways:

- Optimisation of procedures and processes
- Quality improvement and fulfilment of customer expectations
- Cost reduction through more efficient use of resources
- Increase in trust and confidence of employees, partners and consumers
- Image enhancement through use of the TÜV test mark
- Standing out from the competition

TÜV NORD Certification

Neutrality and competence – working for you

For more than 140 years, the name “TÜV®” has stood for safety, reliability and quality.

We are an internationally recognised partner for test and certification services with more than 1,200 experts and auditors, who are generally permanently employed by TÜV NORD CERT. We guarantee the highest level of competence in the certification of products, systems and personnel.

Our experience in all areas of industry, commerce and administration means that we accompany and support the development of your company or products and provide you with objective feedback.
