6th International Symposium

Further Information

Requirements to Papers and Posters

Presentations will be selected from abstracts which should be 2 pages maximum as a condensed version of the paper or poster. The Programme Committee reserves the right to group papers which cover similar topics and to integrate some of the submitted contributions into Poster-Sessions. Further information and the formal requirements on full papers will be provided with the notification of acceptance.

Dates

Only those contributions which meet the following dates may be considered:

Application and abstracts for papers/posters

until	31. Jan. 2009
Authors will be notified of acceptance	28. Feb. 2009
Full papers until	30. Jul. 2009

Programme Committee

A. Janssens, European Commission (Chairman)
L. Baekelandt, FANC, Belgium
H.-F. Beer, PSI, Switzerland
H. Efraimsson, SSM, Sweden
D. Louvat, IAEA
R. Meck, NRC, USA
S. Mobbs, NRPB, UK
M. Okoshi, JAEA, Japan
H. Riotte, OECD/NEA
R. Sefzig, BMU, Germany

Executive Committee

J. Feinhals, TÜV NORD SysTec, Germany (Chairman)
D. Petrick, Ministry for Consumer Protection and Environment of Hesse, Germany
M. Schweers, TÜV NORD Akademie, Germany

Release of Radioactive Materials from Regulatory Requirements

Provisions for Exemption and Clearance 21. – 23.09.2009, Wiesbaden, Germany

TÜV®

6th International Symposium

Scope of the Symposium

Since 1998 TÜV NORD has organized different symposia about the release of radioactive material from regulatory control. During the 2nd and the 4th international symposiums in Hamburg (1999 and 2006 respectfully) the symposium concentrated specifically the discussions of more than 240 clearance-experts. This was very fruitful for the process of harmonisation of clearance levels and release procedures.

Meanwhile, the IAEA has given a first draft for the revision of the International Basic Safety Standards (DS 379). For exemption and clearance the relevant values were taken respectively from EU RP 65 (as in the current BSS) and from IAEA safety guide RS-G-1.7. The IAEA plans to use the values for clearance also for exemption for unlimited quantities. This could be also the basis for the revision of the European Basic Safety Standards. As a lot of nations are interested in the use of the planned regulations for exemption and clearance, TÜV NORD has decided to organize a follow up conference to the 4th Symposium in 2006 (a fifth symposium was done in 2007 with German as the conference language and participants from Austria, Switzerland, Sweden and Germany).

The conference is planned for the **21. – 23. September of 2009** in the **Kurhaus of Wiesbaden** near Frankfurt (for further information about the location see <http://english.wiesbaden.de/index.php> and choose "Congresses and Tourism" and then "The Kurhaus", where you find drawings and pictures of the Christian-Zais-Saal and other locations of this conference).

Organised by TÜV NORD Akademie, Germany

With support of TÜV NORD SysTec, European Commission, OECD/Nuclear Energy Agency, IAEA, German Swiss Radiation Protection Association

General Symposium Arrangements

The symposium will consist of oral and poster presentations selected from submitted abstracts by the Programme Committee. All oral presentations are planned to be given in plenary sessions. Each presentation is intended to be 15 to 20 minutes plus 5 to 10 minutes for discussion. The conference language is English.

Poster presentations are also planned. The programme will be completed through technical papers from invited speakers on general topics. In addition to the symposium programme a technical exhibition will take place in the lobby. Technical excursions are also planned.

The proceedings will be available at the beginning of the symposium. If you are interested in submitting a paper and/or a poster, or in attending this symposium, or in participating as an exhibitor, please provide details on the attached Reply Form.

Fees

The fee of 890,00 € will cover a copy of the proceedings, 3 lunches, and a special evening event. Reductions are possible for authors with accepted papers (740,00 €) and representatives of authorities (490,00 €, limited availability). For more information visit our internet address www.tuev-nord.com/english/clearance.asp

Invited Lessons

A. Janssens, EC

gives a lecture on the EU Policy and legislative requirements on exemption of practices from notification and authorisation and on clearance of materials arising from authorised practices.

H. Riotte, OECD/NEA

gives a lecture on the regulatory authorisation for clearance and exemption – possible approaches in the context of the ICRP 103.

D. Louvat, IAEA

presents "Harmonisation of the Application of the Concepts of Exemption and Clearance through 50 Years of IAEA Standards Development".

Papers and Posters

Recent contributions are solicited and to be integrated into the following stated topic groups:

Section A	Concepts
Section B	Regulatory Framework
Section C	Technical Aspects (incl. Standardization)
Section D	Administrative Procedures
Section E	NORM
Section F	Public Acceptance

For any matter regarding the scientific contents of the symposium and/or presentations please contact
