

CQI & IRCA Certified Course No. 2586 – provided by TÜV NORD CERT GmbH

ISO 27001:2022 Lead Auditor Training Course (Information Security Management Systems)

Learning objectives

The aim of this course is to provide delegates with the knowledge and skills required to perform first, second and third-party audits of information security management systems against ISO/IEC 27001 (with ISO/IEC 27002), in accordance with ISO 19011 and ISO 17021, as applicable. In detail, the course will provide students with the basis for becoming a competent Lead Auditor by teaching the following skills and information:

- Purpose and benefits of an information security management system
- Role of an auditor to plan, conduct, report and follow up an information security management system audit
- Plan, conduct, report and follow up an audit of an information security management system to establish conformity (or otherwise) with ISO/IEC 27001 via exercises and role play

- Generating Audit Findings
- Plan-Do-Check-Act framework
- Differences between first-party, second-party and third-party certification audit
- Benefits of third-party accredited certification
- Terminology defined in the standard
- Requirements for ISMS documented information

Successful completion of the course (including examination) will result in issuance of a certificate, which may be used to support an application to become registered as an IRCA auditor. Being certified as an IRCA auditor is a clear statement showing that you are a recognized, qualified and capable auditing professional.

CERTIFIED COURSE

Recommended prior knowledge

The knowledge of the principles and concepts for information security management systems, including awareness of the need for information security, responsibilities, management commitments, using results of risk assessments and incorporation security as an essential element of information networks and systems, are just as recommended as the knowledge of the requirements of ISO/IEC 27001 and terms and definitions, as given in ISO/IEC 27000. Additionally, the knowledge and understanding of the PDCA cycle will support a successful completion of the course.

Group of participants

All those who require detailed knowledge of ISMS auditing processes are welcome: management system consultants, management involved in ISO/IEC 27001 implementation

and maintenance, personnel working with regulatory authorities, personnel carrying out 1st, 2nd and 3rd party audits, and all those who require a detailed knowledge of the ISMS audit process. The number of participants is limited to a maximum of 20 people - except courses in VILT format, where the limit is 10 participants.

Our know-how for your success

TÜV NORD CERT is an internationally recognized and reliable partner for testing and certification services. Our experts and auditors have in-depth knowledge and generally have a permanent position at TÜV NORD. This ensures independence and neutrality, as well as continuity in serving our customers. The benefit to you is clear: our auditors accompany and support the development of your company and provide you with objective feedback.
