Quick Guide on current status MDR

- First publication of notifications under regulation (EU) 2017/745 (MDR) probably available on 26\textsuperscript{th} of July 2019 (NBOG BPG 2017-1 rev.03)
  

- TÜV NORD CERT GmbH submits the application for notification under MDR in 2018
- Transition to MDR is a stand-alone procedure that implies new application review and contract arrangement
- Each change/innovation after 26\textsuperscript{th} May 2020 requires certification under MDR
- Maximum validity of directive 93/42/EEC (MDD) certificates is limited to 26\textsuperscript{th} May 2024
- Transitional provisions:

\begin{itemize}
  \item \textbf{Entry into force of MDR} \hfill 26.05.2017
  \item \textbf{implementing acts (e.g. NBOG Codes)} \hfill 26.11.2017
  \item \textbf{start of application for designation of NBs} \hfill 26.05.2017
  \item \textbf{Date of application of MDR} \hfill 26.05.2020
  \item \textbf{Notifications acc. MDD/AIMDD become void} \hfill 26.05.2020
  \item \textbf{Date of application of IVDR} \hfill 26.05.2022
  \item \textbf{Last date for placing products on the market under MDD/AIMDD} \hfill 26.05.2022
  \item \textbf{Last date for making available or putting into service of devices already placed on the market under MDD/AIMDD} \hfill 26.05.2025
\end{itemize}
